### **General**

October month has been successful for the international role of LAGA as well as its operation level.

LAGA's participation in CITES Standing Committee, The Great Ape Task Force meeting and many other meetings initiated during these journeys to Geneva and Nairobi were not only effecting policy but used for teaching, learning, and exchanging ideas, learning from other experiences and putting LAGA's lessons as a Wildlife Law Enforcement NGO into a larger context. This is in line with LAGA's objective to serve as a model in the search for a paradigm shift in wildlife law enforcement. From the aspect of institutional growth - two operations initiated by the MINFOF Littoral Delegation asking for the assistance of LAGA stand to prove LAGA's work lead to institutional capacity building rather than Government dependency on the NGO.

The operation unit proved a climb in professional level this month, dealing usefully with a complex operation.

LAGA experienced closure of a cycle as Galit Zangwill, former Manager of LAGA arrived for a visit in Cameroon. The visit was kept as a surprise to the LAGA family. She arrived with an Israeli TV crew filming an episode in a Prime Time Series on Israelis abroad.

### **Investigations**

- **17 investigations** were carried out in 6 provinces including-West, North West, Littoral, South West, Centre and South provinces.
- Work on reorganizing the investigation unit resulted in the decision to issue a public recruitment advertisement.

### **Operations**

3 Operations were held. The operation unit proved **a climb in professional level** this month.

- **10/21- Two ape dealers arrested.** The two dealers were arrested trying to sale a baby chimp. The dealers, well aware of their illegal act and the risk of arrest, made **extensive efforts to conceal the animal**, moving on a motorcycle in the cover of the night and using many methods trying to confuse our forces. They were trying to use the **complicity of a police station to release them** in any case of arrest. Arresting them despite all their efforts involved undercover

work and proved a climb in the professional level of the operation unit. The complaint report is forwarded to court by the police station. MINFOF is not involved in the operation although there a mission order signed by the Minister.

- 10/24- **Two operations against an elephant poacher and a dealer** in Douala. The 2 connected operations were involving 4 fresh elephant tusks and a bag of dry elephant meat. The two are behind bars. The operations were initiated by the MINFOF Littoral Delegation asking for the assistance of LAGA. This stands to prove **LAGA's work lead to institutional capacity building** rather than Government dependency on the NGO.

The meeting focused on trying to bring focal points in different range countries to work on the trade in great apes.
