## Operation

**3 operations** carried out this month with MINFOF **arresting 4 traffickers**.

**8/11/2021 – 2 chimp traffickers arrested in Douala, Littoral Region** following the seizure of a baby chimp and arrest last month of 2 traffickers. 2 traffickers were first arrested at a tiles shop where the animal was kept in Douala and a third, who was considered to be the brain behind the trafficking, was not present during the operation, and efforts continued to apprehend him. He was arrested alongside a fourth trafficker. The chimp was rescued and taken to the Pongo Songo Chimpanzee Sanctuary where it is receiving lifetime care and support.

**14/11/2021 – A trafficker was arrested in Bertoua, East Region with 77kg of pangolin scales.** He transported the scales in a pickup truck. He activated several poachers in the region, particularly around the Lom Pangar Dam and Deng Deng area. He supplied pangolin scales and other wildlife products to several traffickers coming from some of the big towns. He is a commercial car driver plying the road between Bertoua and Lom Pangar and used this activity to illegal transport and sell pangolin scales. He understood when to move the scales from the smaller localities where he bought them, knowing exactly when checkpoints manned by wildlife officials were functioning and for how long.

**27/11/2021 – A trafficker arrested with a freshly killed pangolin along the Yaounde – Bafoussam highway, close to Ndikinimiki.** Blood could be seen on the head of the pangolin

that was probably smashed. Protected wildlife species are generally dangled by hand or hung from a piece of a wooden pole or stick along major highways in country for sale, despite their protected status and the illegality of selling them. The operation comes as a reminder that protected species remain protected and it is illegal to trade in them.
